The Society for Disability Studies

The Society for Disability Studies (SDS) is an international non-profit organization that promotes the exploration of disability through research, artistic production, and teaching. Disability studies encourages perspectives that place disability in social, cultural, and political contexts. Through our work we seek to augment understanding of disability in all cultures and historical periods, to promote greater awareness of the experiences of disabled people, and to contribute to social change.

Further information on membership and the annual meeting can be obtained from the national office of the Society.
